

Summer Time “what” and “where” Questions

Here are 30 “wh” questions about summer and the beach! This download includes 15 “what” questions and 15 “where” questions. The question cards have a blue border and the answer cards have a yellow border. I included pictures on the answer cards so that you can more easily prompt your students or offer choices. These questions are great for working on summer vocabulary and understanding different types of questions.
